

Uniplumbg Enterprise Co., Ltd.

OEM of plumbing fixtures and parts

Uniplumbg Group is a privately held company and specializes in plumbing and OEM products since 1984. Our capabilities include gravity die casting, sand casting, polishing, forging, screw machining, PVD coating and assembly.

Our services offered are Warehousing, Logistics, Quality Assurance Dock Audits, and any service needed by our customers. We tailor the services and costs based on the value added required by our end customers.

Since the beginning, Uniplumbg has grown into global markets and invested continuously in operations to serve the market.

In 1992, Uniplumbg Group expands the sales and marketing channel with global customers who desire products manufactured in many categories and establishes a strong network of supply chain in Taiwan and China. Taiwan becomes the administration base for the Group. This operation provides service in sourcing, purchasing, engineering support, in-process quality control and final dock audit so as to provide a competitive advantage to its customers.

In 2000, Uniplumbg Group acquired a warehouse in California, USA to better our service to the USA market and provides inventory programs and support services.

In 2006, Uniplumbg Group acquired another warehouse in Connecticut, USA.

For over 30 years dedicated in the field, Uniplumbg is rooted and enjoys a reputation for its strong know-how, engineering background and excellent service. We specialize in all services for OEM customers, manufacturers, and provide sourcing agent services and flexible services tailored to customer needs with our capabilities.

We thank you for your time and attention to the brief introduction of our company described as above, and do sincerely look forward to the pleasure of servicing you.
